the revolution in clean air

# Disperser Unit for Plant Rooms

FEATURE SHEET

**PLANT  
ROOMS**

*HIGH PERFORMANCE  
COST EFFECTIVE  
PRODUCTS FOR  
EVERY ONE*

1. Use this unit when treating Air Handling Systems with flow rates greater than 10000Lt/second.
2. Disperser is battery operated and supplied with a charger.
3. Programmable for up to 90 minutes cycled dispensing, with intervals as small as one minute dispensing for each 90 minute cycle.
4. Disperser will only operate when air flow is detected. No need to connect the power supply to the Plant Room control panel!!
5. Load unit with more than 4 months supply of Melaklean. The unit will empty its dispenser chamber and refill itself automatically. Ideal for timing in with quarterly maintenance cycle contracts.
6. Purchase outright or ask us about our long term payment option.
