

MELAKLEAN
the revolution in clean air

Sanitiser for Air Conditioning Units

BENEFITS TO MELAKLEAN USERS

Significantly reduces the amount of airborne bacteria in your indoor environment.

Sanitisation of your air conditioning ductwork, cooling coils and filters.

Use Melaklean to comply with Australian Standards guidelines for the Microbial control of air conditioning systems.

Reduces the chances that your own air conditioner contaminates your air space.

Control or Eliminate unpleasant indoor odours where you live or work.

All materials used in MELAKLEAN are natural, pure organic extracts.

Enjoy working or living in an environment where even the air feels clean.

FAIRFAX DIGITAL

"Ever since we started using Melaklean we have had less complaints about the air quality in the office and it has given the office a pleasant slightly eucalyptus smell."

TILESMART CERAMICS, ST IVES

"We have been using Melaklean at our business premises as well as our home and have been very pleased with the results. Staff have commented on the improved air quality and the benefits are not only happy but healthier staff."

HAWESBURY MEAT POULTRY & GAME WHOLESALE

"I am the owner of a butcher shop in Western Sydney. I have been using your product in my business premises and am very satisfied with the results achieved. The air is definitely fresher."

EMPLOYEE QUOTE AT LOCAL HOSTEL, SYDNEY

"This building houses 200-300 people every night. Melaklean removes odours and I no longer get the same recurring chest infections."
